## *Encouraged and Blessed*

**During a growing season...** In September, we had the privilege to celebrate 13 years of busy but blessed years of ministry. Our people have purposefully grown in their knowledge and spiritual maturity. The church is healthy, unified, and striving to bring glory to His name. In October, we had two new families and two young men get baptized and join the church. They are already being discipled and in the process of getting plugged in. We are reminded that God gives the increase in His time for His glory.

### **During the Valiant Men's Conference...**

In November, we hosted an incredible group of men during our annual retreat. We were challenged through solid, biblical teaching by Pastor Carlos Navarrete. He was used of God to help us see deep issues in our inner man that will hinder potential blessings and service to our King. The altar was full of tears and burdens that the men left there as they made new commitments to be valiant men for God.

**During the Christmas Holidays...** In December, we put together a special Christmas banquet for the teen and singles in our church. The turn out was amazing and of course it would not be complete without a "white elephant" gift exchange. Part of the banquet was a message from God's Word. It challenged all of our hearts to give all of our lives to God for His use and glory. The next week we took a large group from our church Christmas caroling at houses of shut-ins and elderly. We ended with a late night picnic at the central park of our town. We brought the year to a close while hosting a group of 32 members from our sending church, Northern Kentucky Baptist Church. They graciously helped us build an incredible platform for our new auditorium. It meets all of our needs and more. They refreshed

us, encouraged us, and affirmed how God is moving and working in a miraculous way here at HOPE. ministries.

**Because He Lives,**
